BIG AND SMALL

WERRIBEE STEEL - A COMPANY YOU CAN TRUST

A local family business established in 1967, Werribee Steel has established itself as arguably Werribee's leading steel fabricator and supplier.

Extended and renovated in 2004 to keep up with increasing demand, our growth and project turnover has surpassed all expectations.

Whilst our client database has increased to include major builders statewide, we still maintain our personal approach, allowing us to satisfy the demands and requirements of our smaller to medium clientele range of builders, owner builders and the home handyman.

Developed from over 40 years of experience, our quality assurance ensures accurate fabrication

techniques conforming to Australian standards. Our efficient onsite erection procedures guarantees prompt installation of steel structures assisting in your projects deadline requirements.

At Werribee Steel our commitment to working with strict quality standards is clearly shown in not only our workmanship, but also our helpful and professional attitude towards our customers. Feel comfortable as you talk to a member of our team about specific needs relating to your project or steel requirements.
